

Kelvin

2700K – warm white, similar to incandescent bulb
 3000K – soft white, similar to halogen bulb
 4000K – bright white, similar to fluorescent lighting
 5000K – daylight, very bright & similar to sunlight
 6000K – cool white, blue tinted, like a monitor

Dixi LED Down Light is one of the most advanced recessed LED down lights available on the market, our dixi luminaires provide measurable benefits in terms of efficiency and light quality – not to mention their sleek modern look. Our dixi luminaires are available in a square or round format, in three different sizes, four different luminous flows, three colour temperatures, in either IP 20 or IP 65 rating. Referring to this passively cooled recessed LED down light as being merely versatile would be as much of an understatement as simply calling it a low energy consumption luminaire. For compared to conventional TC down lights, our Connor luminaires cut energy use by up to 65 percent through the use of cutting edge LED technology. And in fact, space doesn't really allow us to fully sing the praises of our Dixi luminaires, so we'll confine ourselves to mentioning its beautifully shaped aluminium reflector that uses an innovative technology and is available in a high polish or matt version.

Description

Housing - Hard die-cast aluminum body, white powder coated

Diffuser - Tempered Frosted Glass Diffuser

Reflector - Aluminium Reflector

Color Available - White

Lifespan - >50,000 Hours (L90 B10)

Voltage - AC220-240V

Working Temperature - -10C° ~ +50C°

IP Rating - 20, 65
