Floody all in one Solar Street Lights, also called Integrated solar street light which integrates the green energy parts solar panel, LED lamp and the LiFePO4 battery into a single product, with human intelligence induction system to control the lighting mode automatically. It comes with Micro-computer controlled-Combine motion sensor system, light control system and time Control system perfectly, ensure whole system more energy-efficient. Our smart assembling made it as a great heat dissipation-Solar panel, battery and light body do not connect directly, they will not conduct heat to each other, to support good heat dissipation and long lifetime.
