Beam Angle

Sky is a spike light, with an essential and complementary shape, plus an LED source. Optical unit with convex extra clear glass lens, this for smoothing the light beam. Aluminum lacquered cases with high-resistance varnish, colors are available in an extra matte finish, perfect for all contemporary living spaces. Sky is extremely minimal if used on its own, but it can become extremely spectacular if combined in multiple compositions. Fastening is not limited to a pre-set point, but it can change according to the installer's needs.
