

Spiky LED Garden spike lights are flexible in installation; it can fit into any outdoor environment. LED garden spikes are LED garden lights that are placed in the ground with the fixture above the ground. This is fully visible and can be tilted, so that the direction of the light beam can be adjusted. In this way, objects such as statues, fountains, façades, walkways or ponds can be illuminated. The mounting bracket is designed to fit our spike lights, enabling them to be surface mounted.

Description

Housing - Material Die-casting Aluminium

Diffuser - Clear Frosted Glass, Silicon Rubber Gasket
