Terra-II is an indoor recessed spotlight designed in square shape. It can be configured to suit your exact requirements: first choose the body, then the material then the material either chrome or Die cast aluminum, and finally the retaining bezel, either square. The fixture can be further customized with the choice of cover, available in a round or square version and in three different depths. It is also possible to alter the lighting effect by using optical filters to obtain a diffuse or elliptical output.
